

TRAPS FOR SALE OR RENT!

AVAILABLE BY THE DAY, WEEK OR MONTH

We have ATA traps available to rent that are mounted on T-carts for use at home or on the range. All ATA 300E traps are set up to run on deep cycle batteries. We also have transformers available to place in Trap houses as well, along with 400 bird carousels. These traps are very affordable and great to train with. We have metal shields available to put in the ground to protect the trap and to keep the carousel and arm “invisible” to not be able to identify the direction of the target.

We also design and set up 5-stands and walk-through courses for your use whether it be competition, high school events, NSCA events, birthday/bachelor parties or fundraisers. We can travel anywhere in Iowa and into contiguous states.
